Emma Signs & General Supplies

Background

We are the architects of signage in Tanzania having more than 22 years in the industry . Growing from a 'One print & cut Roland machine" to where we are today, able to offer a complete multiple format signage print solution

Our business is built on traditional values of Integrity and Respect.

Having passionate, multi-skilled people lets us maintain a streamlined team that works to tight deadlines without compromising on quality. Management is hands-on and, when you deal with ESGS, you deal with a team of highly skilled deadline junkies. We love what we do and it shows.

Emma Signs & General Supplies

Creating the Magic

ESGS has been a leading full-service manufacturer of durable custom nameplates, panels, overlays, labels and signs for more than 22 years. Our experience is our strength, providing the knowledge and capability to deliver the best solution for your product identification needs. Be it road traffic signs, industrial safety signs, road marking, sign boards or any signage works ESGS is committed to delivering high quality and cost-effective products that suit the environment they will be placed in as well as their intended application

- Our Branding capabilities include all forms of interior and exterior signage, from low energy illuminated signs to fabricated acrylic signs.

- ESGS signs are designed to remain readable for the life of your application, even in the harshest environments. Our directional and way-finding signs, traffic, wildlife, plant and interpretative signs, and architectural and informational signs are manufactured to last just as well in unprotected exterior applications as they are in mild, controlled environments. ESGS combines durability and style, offering the best choices for your signage needs..

- Our signs offer tough performance through sustained outdoor exposure, extreme temperatures, chemical exposure and cleaning processes, while retaining their original appearance..

Emma Signs & General Supplies

Design & Innovation

ESGS is deeply rooted in the organization, from its genesis as the first Tanzanian user of large-format flatbed signage print, to its development of the ESGS Smart Sign digital signage management system, its early adoption of off-shore signage manufacture; and its design and manufacture of LCD displays for specific signage applications.

Our creative design team can provide innovative design solutions to meet your design brief requirements and meet your marketing budget.

ESGS design team includes creative, industrial and environmental designers – able to come up with innovative concepts, and then design cost effective ways of delivery.

With our extensive knowledge of design, deep experience in working with Tanzania leading brands, and the use of our leading edge technology, we can prepare creative concepts and assist in choosing the right solution to match your desired outcome.

“We provide imaginative and resourceful individuals who, using the highest quality equipment and technology, conceptualize your ideas and turn them into reality!”

Emma Signs & General Supplies

Conceptual Design

ESGS provides innovative and creative signage and design solutions that have been successfully implemented.

We integrate our projects with a group of experienced, professional and creative designers who develop a diversity of ideas.

The successful approach to any project blends the unique user criteria with hands-on planning, design development and construction budgeting using graphic, written and oral presentation techniques. Our ability to work diligently with the design team and clients in a cost effective, efficient manner further assists in creating a successful project.

We focus on a high level of design quality while maintaining established time schedules and budgets. We select those team members who are best suited to deal with the challenges of each project's unique requirements

3D Concept Art is just one possible part of your Zest experience to ensure you know exactly what you're going to get. We work with you every step of the way.

Road Traffic Signs

ESGS road signs use shapes, colors, words, and symbols to communicate a message to drivers. Without such signs, the movement of traffic would be disorderly and unpredictable.

Regulatory: Control/Command/Prohibition/Reservation

Warning: Road Layout/Direction of Movement

Guidance: Location/Route Markers/Direction

Temporary: Command/Prohibition

Our Product portfolio includes the group of

- Delineator Posts
- Traffic Cones
- Refuge Signs
- Ad Cones
- Solar Warning Lights
- Warning and Ad Posts
- Road Studs
- Lane Dividers
- Speed Ramps
- Tactile Walking Surfaces
- Traffic Signs
- Warning and Ad Signs
- Parking Corner Protectors
- Various types of Auxiliary Traffic
- Safety Products

Emma Signs & General Supplies

Industrial Safety Signs

At ESGS, we have ready posters for your safety signage requirements. The signs have a easily identifiable symbol or icon on the left accompanied by relevant text on the right. The signs are printed on vinyls, laminated to increase ruggedness and durability, and can also be printed on any materials as per customer requirements. Further, we mount them on 3 mm rigid sun board. These boards can then be easily pasted / drilled in the work place by the end customers.

If necessary, the boards can be provided in auto glow / night glow options. Night glow safety boards are printed on a special radium vinyl. The vinyl absorbs light in the day or when the lights are switched on. It then emits a highly visible glow at night or when in complete darkness. Auto glow boards are used extensively for showing the Emergency Exit' location.

Emma Signs & General Supplies

Road Markings Services

ESGS are a specialist marking contractor for highway agency asset support contracts, construction & framework contracts, local authority roads, resurfacing schemes, airport, rail, car park, factory, sports and school playground projects.

ESGS provide a full range of permanent marking solutions with the flexibility for small works on local authority roads or car parks as well as to fully resource major schemes on motorway and trunks roads.

Covering the whole of the TANZANIA ESGS is the market leading provider of temporary road marking services utilizing specially developed and constructed vehicles.
